A MESSAGE FROM YOUR KSPE PRESIDENT

Brian Coomes, P.E.

“The first step towards getting somewhere is to decide that you are not going to stay where you are.” I believe this JP Morgan quote was effectively demonstrated by the tremendous attendance we had at our annual KSPE conference in Manhattan. Seeing so many of our friends and colleagues actively engaged in the betterment of our profession energized me more than any professional event I have attended. Engineers from all over our great state gathered to show that we are ready to lead the way towards re-engaging as a professional society. There is no doubt that COVID continues to impact many of our lives in a dramatic fashion, but I am extremely proud to be part of a profession that has endured the strain and continued to protect the health, safety, and welfare of the public. We demonstrated that we are not going to let the challenging circumstances of the previous year define where we are heading in the future. Simply put, we decided we are not going to stay where we are!

Growth is what allows our society to remain healthy and serve the engineers of our state. I will continue to challenge all of us, throughout all stages of our careers, to ‘bring a friend’ to our local KSPE events this year. Reflect on the mentor that encouraged you to become a member, and then be that mentor for someone else. A growing organization will continue to provide us with the resources and influence to protect our engineering license. We expect that the upcoming year will continue to serve challenges to our professional license. Many of us entered the profession because we wanted to have a positive impact on the communities in which our friends and families live and work. Our license gives us the ability to serve and ethically protect these communities, and we should not take that for granted. The recent events in Florida serve as a humbling reminder that our work has an intense impact on the lives of many. Travis and the BHL team do a great job advocating for all of us and ensuring we continue to have the ability to do our jobs.

Brian Scovill, our outgoing KSPE President, deserves a tremendous ‘Thank You’ from all of us. Brian led our organization during the most difficult time that many of us have experienced in our professional careers, and he has left KSPE in a position of strength and poised for growth. I am honored to follow in Brian’s footsteps and serve the society this upcoming year.

Local KSPE chapters are where the real magic happens, though. I am continually amazed by the amount of activity that our local chapters generate along with the wide-ranging impact those activities have on our local communities. I commend all of you that have worked feverishly to keep the KSPE wheels turning in your local chapters over the past year, and I am looking forward to visiting and meeting more of you through chapter visits this fall! As we continue to resume more of our traditional KSPE activities, you may be asked to consider taking on a new role, office, or initiative with your local chapter. This year, when KSPE comes knocking at your door, please consider the potential with an open mind. If this year’s conference showed us anything, it is that networking and fellowship still have tremendous value. Consider this value as you evaluate opportunities to re-engage with the society. Let’s work together to provide our friends, colleagues, and future generations these same opportunities by continuing to say ‘YES’ to KSPE.

Brian Coomes, P.E.
EXECUTIVE DIRECTOR’S REPORT

Travis Lowe, CAE

KSPE members,

Hello from Topeka! It is hard to believe summer is already here! In addition to celebrating our nation’s independence, July is an important month for KSPE. Our administrative/fiscal year switches over, ushering in a new set of leaders at the state and local chapter levels. We are just days past our outstanding Conference with many updates to share. But first, we want to thank our members for their continued support that keeps KSPE strong.

Thank you to everyone that helped make our 2021 Conference a success. It seemed like everyone was excited to see their colleagues in person as our attendance increased 20% from the 2018 Conference at the same venue. Seminar sessions were well attended while NSPE President-elect Rick Guerra, P.E., F.NSPE, a mechanical engineer from Austin, joined to meet our Kansas members. Our Ron Gaches Seersucker Open golf tournament at Colbert Hills saw 24 golf teams with Ron himself in attendance. Thank you to each attendee, sponsor, speaker, and vendor that made the event one for the books. We offer a special thank you to Michael Heigert, P.E., and his Conference Planning Committee for their planning efforts with the help from Cassie Patrick, IE and the Young Engineers Committee, and Sarah Tuite, P.E and the Awards Committee. We are already excited for next year in Wichita.

As of July 1, Brian Coomes, P.E. of Pittsburg takes the reins as KSPE President. As we look forward to Brian Coomes’ plans and the new KSPE Board to begin its work, we thank Brian Scovill, P.E. for his efforts as president over the last year. Each year has its challenges, but we are extremely proud that the state and chapters remained active through the pandemic.

As we look ahead, chapters are hitting the ground running. Please check with your chapters for their meeting schedule for the summer and fall, which will include Brian Coomes’ president visit with most of the chapters holding a legislative event.

We are pleased to report that our KSPE membership remains strong with more members today than at this point last year. This is a testament to your support of KSPE’s mission. As you know, a major part of the mission is defending licensure. As we come off a very active legislative session, KSPE and KSPE PAC are already working on building support for KSPE issues as we prepare for the next session.

Enclosed in this issue is a list of our PAC supporters to date. Please consider a contribution, which can be made online.

On a closing note, we encourage everyone to stay active at the chapter level. Our success begins there, and each chapter is working to re-establish its footing as we get through the pandemic. Our society’s mission is centered on licensure. It is what unites all of our members, regardless of discipline. Our young engineers on the path to licensure want the license to mean as much in twenty years from now as it did when they received it. With your help and continued support, we will work toward that goal in Kansas.

Thank you for your continued support!

See you soon,

Travis Lowe, CAE
2021 CONFERENCE RECAP

It was wonderful to see in-person attendees of the 2021 KSPE Annual Conference that took place June 23-25 in Manhattan, Kansas. Make sure to save the date for next year’s conference, which will be June 15-17 in Wichita.

Past presidents Brian Scovill and Jessica Rhein shake hands as Brian passes a plaque to Jessica.

Outgoing KSPE President Brian Scovill passes the reins to Brian Coomes.

Adam Stodola and Kristen Leathers were kind enough to pose for a picture during some free time in between sessions.
2021 CONFERENCE RECAP: GOLF TOURNAMENT
AWARDS COMMITTEE UPDATE
by Sarah C. Tuite, P.E.

The awards committee reviewed all nominations in early May and met on May 18th as a group to compile individual scores and identify the winner for each category. Awardees were notified the following week and will be notified publicly at the Annual Meeting next week. The award winners are as follows:

1. **Engineer of the Year** – Tony Rome, P.E., City of Overland Park, Eastern Chapter
2. **Government Engineer** – Lynn Packer, P.E., Sedgwick County, Wichita Chapter
3. **Intern Engineer** – Rex Ritter, HW Lochner, Smoky Valley Chapter
4. **Young Engineer** – Mark Dolechek, P.E., Garver, Wichita Chapter
5. **KSPE Award** – Donald Rathbone, P.E., Kansas State University, Tri-Valley Chapter
6. **Outstanding Citizen** – Peter Meitzner, Sedgwick County Commissioner, Wichita Chapter
7. **Outstanding Engineering Achievement** - Riverfront Stadium, Wichita Chapter
   a. JE Dunn Construction – Eby Construction Joint Venture
   b. Schaefer Johnson Cox Frey Architecture
   c. DLR Group
   d. Professional Engineering Consultants, PA
8. **Professional Development Award** – City of Derby
9. **Teachers of the Year**:
   a. High School – Janet Hanson, Manhattan High School, Tri-Valley Chapter
   b. Middle School – Sarah Kromer, Maize Middle School, Wichita Chapter
   c. Elementary – Lori Rice, West Elementary, USD 320, Tri-Valley Chapter

The committee also revised and updated the award nomination forms and discussed the notion of preparing award submittal templates to increase the consistency of submittals.
Awards Committee President Sarah Tuite, P.E. announces the 2021 award winners.

Sarah Kromer, Professional Development Award, Middle School, with Brian Scovill, P.E.

Pete Meitzner, Outstanding Citizen Award, with Brian Scovill

Donald Rathbone, Ph.D., P.E., Dean Emeritus, KSPE Award, with Brian Scovill, P.E.

Lori Rice, Professional Development Award- Elementary

Sarah Kromer, Professional Development Award, Middle School, with Brian Scovill, P.E.
KSPE AWARD WINNERS

Lynn Packer, P.E., Government Engineer of the Year

Tony Rome, P.E., 2021 Engineer of the Year

Mike Hughes, P.E., Outstanding Engineering Project with Pete Meitzner and Sarah Tuite

Mark Dolecheck, P.E., Young Engineer Award

Alex Lane, Professional Development Award, City of Derby

Rex Ritter, Engineering Intern of the Year
The Kansas Society of Professional Engineers is pleased to recognize Kiel Johnson as an NSPE Fellow member. The Fellow membership grade honors those active NSPE members who have demonstrated exemplary and devoted service to their profession, the Society, and their community. Requirements for the designation include holding at least one elected office at any level and active involvement at the national level.

Kiel has been a member of NSPE since 2008, serving in numerous positions at the chapter, state, and national level. He frequently volunteers for events that promote STEM education and training, such as Future Cities, Model Bridge Building, MathCounts, and others. Kiel has also received several other prestigious recognitions by NSPE, including the NSPE-KS Eastern Chapter Engineer of the Year award in 2016.

“I’m very humbled to have received this honor,” Kiel said. “NSPE is dedicated to the support and advancement of the engineering profession, and I’m proud to be a Fellow of this society.”

NSPE state and territorial societies can nominate one person for each 500 voting members on their rolls per year. Nominations are also open to NSPE interest groups, chartered affinity groups, and the Board of Directors. Since its establishment in 2000, slightly more than one percent of all NSPE members have advanced to this highest volunteer membership rank.

IN MEMORY:
Jack Dean Hinton, P.E.

Jack Hinton passed away on May 9, 2021 at the age of 84, in Tulsa, Oklahoma, surrounded by his loving family.

From his obituary:
“Despite being “retired,” Jack served in various positions in State and National Engineering Societies. He was involved in the Kansas Engineering Society and received their Engineer of the Year Award in 1990, and was elected President of the National Society of Professional Engineers in 1996. He loved that community and the many friends he and Glenda made as they traveled all over the country during those years.”

To read Mr. Hinton’s full obituary, please click here.
EDUCATIONAL FOUNDATION UPDATE

by Wayne Nelson, P.E.

The Engineer’s Foundation of Kansas board of directors met on June 23 in conjunction with the KSPE Annual Conference in Manhattan. Typical reports and updates were presented including donations for Teacher of the Year awards, MATHCOUNTS, Future City, the annual EFK Golf Tournament, which will be held at Colbert Hills on October 1, and election of officers for the coming year. The board was told that a Dean for the Wichita State University College of Engineering has been selected but the name will not be identified until a later date by the University. The members of the board and their roles are as follows:

<table>

Congratulations!
1st EFK Fellow is named.

A combined live/virtual celebration was held on March 19 celebrating Don & Lynne Rathbone and their significant impact on engineering & STEM nationally and in the State of Kansas. The celebration featured impassioned messages from former students, the Dean, the Provost, K-State’s President, engineering alumni, esteemed colleagues, politicians, and state and national leaders from the Board of Regents, the Board of Technical Professions, the Order of the Engineer, and MATHCOUNTS. THANK YOU to all our celebrants!

EFK President Wayne Nelson announced that the Kansas state-wide MATHCOUNTS competition is being named in honor of Don & Lynne Rathbone. The Rathbone celebration is the first EFK Fellow program sponsored by EFK to raise $10+ million in the next 10 years to support Kansas STEM, engineering licensure, and economic/workforce development. We are partnering with the Greater Manhattan Community Foundation (GMCF) in this effort.
Thank You!
Grow Green, GMCF Match Day.

Thank you! Thursday, April 22nd the Engineer’s Foundation of Kansas participated in the 9th Annual Greater Manhattan Community Foundation (GMCF) Grow Green Match Day. More than $17,500 was gifted from 31 donors. The Grow Green Match added another $3,679 to a total of $21,180.

We are grateful to each of our donors and the Grow Green Match challenge provider Phil Howe. These gifts are the cornerstones for expanding EFK’s program support. Join us in thanking these great supporters!

**Task Force Volunteers**

**EFK Investing in the Future of Engineering Task Force is formed.**

**Task Force Objectives:**

1. Guide & implement the EFK Investing in the Future of Engineering Fundraising Plan and establish EFK as the “Go to” 501(c)3 charitable organization for Kansas Engineers.
2. Create endowed and expendable funds sufficiently large enough to sustain EFK activities by 2030 ($1 Million by 2023 and $10 Million by 2030).
3. Identify/prioritize the top 50 living engineering professionals, corporations, & programs deserving recognition for impacting the engineering profession and/or the Kansas economy.
4. Identify donors, guide and assist with fundraising efforts, and help coordinate plan implementation between EFK, KSPE, BHL, and KSPE chapter leadership & the volunteer base.

**Task Force Members:**

Thank you to these volunteers who are working to invest in the future of Kansas.

- Tom Roberts, Task Force Chair
- Ken Bengtson, EFK Treasurer
- Greg Braden, BHL and Associates
- Rick Ensz, Cooper Malone McClain, Inc.
- Wayne Nelson, Ex Officio/EFK President

**GMCF Resources**

Vern Henricks, CEO

**KSPE**

Brian Scovill, President

**Program Champions**

David Johnson, MATHCOUNTS
Kevin Koester, Future City GPRC
Mark Johnston, Bridge Building

**Chapter Champions**

- Brad Ross, P.E. (TVC)
2021 LEGISLATIVE PRIORITIES

Promoting & Protecting the P.E. License
KSPE supports continued employment of licensed P.E.s in state agencies & local government, protecting the standards and meaning of the P.E. license, and preventing double licensure mandates. KSPE opposes elimination of licensure requirements for state technical & scientific positions where requirements are important to the health, safety and welfare of the public.

Addressing the Engineer Shortage
Extending the Kansas University Engineering Initiative Act (UEIA) to increase engineering graduates in Kansas. Over 70% of Kansas engineer consulting firms report there are still not enough engineers to meet their hiring needs. The UEIA is scheduled to expire in 2022.

Funding Our State’s Infrastructure
KSPE supports protection of designated funds of the State Highway Fund and State Water Plan Fund. We also support completion of the T-WORKS comprehensive transportation plan and the commencement of its successor, the Eisenhower Legacy Transportation Plan.

Project Design Procurement
KSPE supports Qualifications Based Selection (QBS) and opposes removal of the use of QBS for state projects that utilize P.E. services. KSPE also supports enforcement of K.S.A. 68-501 requiring County Engineers to be licensed P.E.s, and creation of a state-funded incentive program to ensure counties are equipped to employ a licensed P.E.

Professional Services Taxation
KSPE opposes the imposition of state or local sales taxes on the delivery of professional services by engineering, architecture and/or design fees.

PRACTICE DIVISION UPDATES

Professional Engineers in Industry (PEI)
Amy Martens, P.E.

PEI held the annual practice division meeting during the KSPE Annual Conference on Thursday afternoon, June 24th. Each year, the annual meeting is a forum where we discuss updates to members on local and national issues impacting our profession as well as state and national KSPE/NSPE society business. I want to thank Tom Roberts, P.E. for leading the joint practice division meeting session for both PEHE and PEI this year as I had a personal conflict. With the pandemic winding down, I am looking forward to resuming our regular PEI activities. I have not heard from any PEI members with interest in the PEI Chair role for next year, so I am happy to serve as chair again for the 2021-2022 term. I look forward to continuing to serve KSPE and the PEI members!

Please contact Amy Martens, PEI Chair, at amy.martens@bcbsks.com if you have agenda items you would like to discuss or if you are interested in taking on a leadership role with PEI.

Professional Engineers in Higher Education (PEHE)
Tom Roberts, P.E., F.NSPE

KSPE Link #106 conducts Order of the Engineer Ring Ceremony during June Annual Conference
Kudos to all KSPE Annual Conference attendees who renewed their obligation on Thursday morning during the Order of the Engineer Ceremony. The Obligation is a formal statement of an engineer’s responsibilities to the public and to the profession. It is a Creed similar to the Oath attributed to Hippocrates that is commonly taken by medical graduates and which sets forth an ethical code. The Obligation likewise contains parts of the Canon of Ethics of major engineering societies.

Thank you to NSPE President-elect Rick Guerra who recited the Obligation. KSPE President Brian Coomes provided the invocation and Past-president Brian Scovill summarized the history of the Order. We encourage all KSPE members to join the Order and wear the Ring as a public statement of professionalism.

Please contact Tom C. Roberts, P.E., F.NSPE, F.ASEE NSPE-KS and PEHE Chair at 785.565.1286 or at tcr@ksu.edu if you have any questions.
MEMBER SPOTLIGHT:

Jerry Younger, P.E.

KSPE Chapter: Topeka Chapter

Why did you become an engineer?

I started college as a phys-ed major and originally wanted to be a basketball coach. After a couple semesters I realized that the probability of that plan paying well after graduation was pretty small. I was good at math and science in high school, so I changed my major to engineering because it seemed logical.

What is your employment/education history?

I received a BS in Civil Engineering after 2 years at a junior college followed by 4 years at KU (aka “The 6 Year Plan”). Straight after graduation I began working at KDOT and took evening classes to complete a MS in Civil Engineering. After 30+ years and serving in a number of different positions, the last being Deputy Secretary and State Transportation Engineer for 10+ years, I retired from KDOT in September 2016. Since retiring from KDOT, I’ve been the Managing Director of the Kansas Aggregate Producers Association/Kansas Ready Mixed Concrete Association (KAPA-KRMCA).

Tell us about your family:

We live on some acreage in western Douglas County. I have two married sons, one in St. Paul, Minnesota and one in Chicago. One grandson (Levi) who recently turned one year old and one brand new granddaughter (Clara) born this year.

What is your greatest accomplishment to date?

Raising two sons that have become successful, intelligent and caring young men and now parents, would be right up there. Professionally, what I treasure the most is the relationships built over the many years with the individuals that my career has provided an opportunity to engage with.

What do you like to do with your free time?

A little golf. A lot of Facetime with the grandkids. I have a shop set up for woodworking and always seem to have project(s) going on.

If you weren’t an engineer, you would be

Per my previous answer, probably a coach.

FAVORITES

Restaurant:

Aladin’s Cafe in Lawrence is a favorite spot. For sheer gluttony, hard to beat Five Guys and a big pile of their french fries.

Vacation Spot:

If you remove the current pandemic protocols from the equation, Vegas is one of my favorite places to go. Food, entertainment, gambling, golf and people watching are all top notch.

Sports Team:

The Jayhawks for sure. I’m a huge Chiefs and Royals fan, too.

Song or Music Artist:

Classic Rock all the way. It’s the music I grew up on. Playing it loud off a cassette tape through a Pioneer Supertuner and Fosgate Preamp in a 65 Chevelle (my generation will know what I’m talking about!).
