

CITY of **Leawood**  
Job Announcement

---

**THE CITY OF LEAWOOD, KANSAS is looking for  
an Engineer In Training (EIT)**

As an Engineer In Training, you'll be an integral part of assisting the Engineering Team with the design, construction, and project management of the City's public infrastructure projects. Your daily tasks may include:

- Assisting the Engineering Division of Public Works with in-house and consultant designs, specifications, and inspection of capital and maintenance projects including streets, bridges, storm sewer, signals, lighting, parks, and facilities.
- Assisting in the review of proposed construction drawings and submittals for City public infrastructure projects and private development projects.
- Collecting, analyzing, and presenting traffic flow and control data, including signing, sight distance, and signal warrant studies.
- Assisting in the review and evaluation of proposed storm drainage designs and grading plans for adequate drainage and erosion control.

We are seeking individuals who are eager to learn the ins and outs of the interworking's of a municipality and how public infrastructure projects such as streets, trails, traffic devices, bridges and city buildings are constructed. The Engineer in Training plays a vital role in helping the City of Leawood build and maintain its public infrastructure projects!

**Are you the ideal candidate to start a career as an Engineer in Training (EIT) with the City of Leawood?**

- Have a love solving problems, applying engineering principles and a desire to contribute to the community?
- Possess a strong work ethic and willingness to learn new skills?
- Are reliable, punctual, and able to work well in a team environment?
- Desire for career development and growth with the City and the engineering industry?

The Engineering in Training will learn from seasoned Engineer professionals who have worked their way up in the field of engineering. You will be mentored and challenged to grow into a Project Engineer where you can be the one leading the next public infrastructure project. The sky is the limit and your career as an Engineering in Training at the City of Leawood would be what you make it!

**Minimum Requirements:**

Must have a minimum of a Bachelors' degree in Civil Engineering from an accredited engineering school. Must have and be registered as an Engineer in Training Certification from the National Council of Examiners for Engineering and Surveying (NCEES) or be able to obtain within one (1) year of hire. Must have a valid driver's license and acceptable driving record per the City's drivers Use of Vehicles for City Business policy throughout employment with the City.

**Accepting Applications through May 13th.**  
**Starting Rate of Pay: \$59,120.73 - \$72,422.89 / Annually, DOQ**
